

# Image Compression

---

<b>5.1</b>	<b>Lossless Coding</b> <i>Lina J. Karam</i> .....	643
	Introduction • Basics of Lossless Image Coding • Lossless Symbol Coding • Lossless Coding Standards • Other Developments in Lossless Coding • References	
<b>5.2</b>	<b>Block Truncation Coding (BTC)</b> <i>Paul Salama, Martha Saenz, and Edward J. Delp</i> .....	661
	Introduction and Historic Overview • Basics of BTC • Moment Preserving Quantization • Variations and Applications of BTC • Conclusions • Acknowledgments • References	
<b>5.3</b>	<b>Fundamentals of Vector Quantization</b> <i>Mohammad A.U. Khan and Mark J.T. Smith</i> .....	673
	Introduction • Theory of Vector Quantization • Design of Vector Quantizers • Vector Quantization Implementations • Structured Vector Quantization • Mean-Removed Vector Quantization • Multistage Vector Quantization • Trellis-Coded Vector Quantization • Closing Remarks • References	
<b>5.4</b>	<b>Wavelet Image Compression</b> <i>Zixiang Xiong and Kannan Ramchandran</i> .....	689
	What Are Wavelets: Why Are They Good for Image Coding • The Compression Problem • The Transform Coding Paradigm • Subband Coding: The Early Days • New and More Efficient Class of Wavelet Coders • Adaptive Wavelet Transforms: Wavelet Packets • JPEG2000 and Recent Developments • Conclusion • References	
<b>5.5</b>	<b>Lossy Image Compression: JPEG and JPEG2000 Standards</b> <i>Rashid Ansari, Christine Guillemot, and Nasir Memon</i> .....	709
	Introduction • Lossy JPEG Codec Structure • Discrete Cosine Transform • Quantization • Coefficient-to-Symbol Mapping and Coding • Image Data Format and Components • Alternative Modes of Operation • JPEG Part 3 • The JPEG2000 Standard • The JPEG2000 Part 1: Coding Architecture • Performance and Extensions • Additional Information • References	
<b>5.6</b>	<b>The JPEG Lossless Image Compression Standards</b> <i>Nasir Memon, Christine Guillemot, and Rashid Ansari</i> .....	733
	Introduction • The Original JPEG Lossless Standards • JPEG-LS Lossless Compression Standard • JPEG2000 and the Integration of Lossless and Lossy Compression • Discussion • Additional Information • References	
<b>5.7</b>	<b>Multispectral Image Coding</b> <i>Daniel Tretter, Nasir Memon, and Charles A. Bouman</i> .....	747
	Introduction • Lossy Compression • Lossless Compression • Conclusion • References	
<b>5.8</b>	<b>Recovery Methods for Post Processing of Compressed Images</b> <i>Y. Yang, N.P. Galatsanos, and A.K. Katsaggelos</i> .....	761
	Introduction • Basic Theory of Projections Onto Convex Sets • Projections Onto Convex Sets–Based Image Recovery from Compressed Data • Maximum A Posteriori Estimation for Post Processing of Compressed Images • Conclusions • References
