

# VI

## Video Compression

---

<b>6.1 Basic Concepts and Techniques of Video Coding and the H.261 Standard</b>	<i>Barry Barnett</i>	777
Introduction • Introduction to Video Compression • Video Compression Application Requirements • Digital Video Signals and Formats • Video Compression Techniques • Video Encoding Standards and H.261 • Closing Remarks • References		
<b>6.2 Interframe Subband/Wavelet Scalable Video Coding</b>	<i>John W. Woods, Peisong Chen, Yongjun Wu, and Shih-Ta Hsiang</i>	799
Introduction • Motion Estimation • MC Temporal Filtering • Overlapped Block Motion Compensation • Scalable Motion Vector Coding • The EZBC Coder • Comparing Scalable Coders—Cross-Check Method • Multiple Adaptations • Some Visual Results • Other Improvements and Related Coders • Conclusions • References		
<b>6.3 Digital Video Transcoding</b>	<i>Shizhong Liu and Alan C. Bovik</i>	819
Introduction • Video Transcoding for Bit Rate Reduction • Heterogeneous Video Transcoding • Bit Rate Control in Video Transcoding • Error-Resilient Video Transcoding • Concluding Remarks • References		
<b>6.4 MPEG-1 and MPEG-2 Video Standards</b>	<i>Supavadee Aramvith and Ming-Ting Sun</i>	833
MPEG-1 Video Coding Standard • MPEG-2 Video Coding Standard • Summary • References		
<b>6.5 MPEG-4, H.264/AVC and MPEG-7: New Standards for the Digital Video Industry</b>	<i>Berna Erol, Adriana Dumitraş, Faouzi Kossentini, Anthony Joch, and Gary Sullivan</i>	849
Introduction • Terminology • MPEG-4: Technical Description • MPEG-7: Technical Description • Conclusions • References		
<b>6.6 Embedded Video Codecs</b>	<i>Minhua Zhou and Raj Talluri</i>	877
Introduction • Block-based Video Coding • Embedded Video Codec Careabouts • Embedded Video Codec Design Flow • Summary • References
