

VIII

Image and Video Rendering and Assessment

8.1	Image Quantization, Halftoning, and Printing <i>Ping Wah Wong</i>	925
	Introduction and Printing Technologies • Scalar Quantization • Halftoning • Color Quantization • Halftone Watermarking and Embedding • Conclusion • References	
8.2	Perceptual Criteria for Image Quality Evaluation <i>Thrasyvoulos N. Pappas, Robert J. Safranek, and Junqing Chen</i>	939
	Introduction • Fundamentals of Human Perception and Image Quality • Visual Models for Image Quality and Compression • Conclusions • References	
8.3	Structural Approaches to Image Quality Assessment <i>Zhou Wang, Alan C. Bovik, and Eero P. Simoncelli</i>	961
	Introduction • The Structural Similarity Index • Image-Quality Assessment Using a Structural Similarity Index • Validating Image-Quality Measures • Concluding Remarks • References	
8.4	Information Theoretic Approaches to Image Quality Assessment <i>Hamid R. Sheikh and Alan C. Bovik</i>	975
	Introduction • Mathematic Preliminaries • Information Fidelity for Quality Assessment of Natural Images • Implementation Issues • Results • Conclusions and Future Work • References
